SUMMARY

I am a Frontend Developer with 1.7 years of experience in React brings a solid foundation of web development skills to the table. Proficient in React, I have demonstrated my ability to create responsive and interactive user interfaces. With experience in API integration, data flow management, and the utilization of modern tools, I have successfully contributed to live projects. My expertise in React and frontend technologies enables me to collaborate effectively with teams, tackle complex challenges, and deliver high-quality, user-centric solutions. As a proactive learner.

- Angular
- JavaScript
- Bootstrap
- Redux
- Bootstrap
- Material UI
- Tailwind

PROFESSIONAL EXPERIENCE

Frontend developer trainee

Opayl private limited | 30, August 2022 - 10, Oct 2022

- The initial skill I acquired was crafting effective responsive designs, adapting layouts to various devices seamlessly.
- have successfully created over 10 diverse designs, honing my expertise in crafting visually appealing and functional solutions for various projects
- I acquired proficiency in utilizing routes within React, mastering the art of navigation and creating dynamic user interfaces that efficiently handle different URLs and components for a seamless browsing experience.

Junior Front-end Developer

Code Fusion Private Limited | 17, Oct 2022 - 27, May 2024

- I have actively participated in three dynamic live projects, each contributing significantly to my professional growth. In the initial endeavor, I mastered API integration, skillfully merging external data sources to enrich project functionalities.The second undertaking offered invaluable experience in data flow management, allowing me to efficiently pass data between parent and child components while also gaining expertise in the art of destructuring.
